Best time/way to contact you: _____

Roads will not be considered for acceptance until completion of storm drainage improvements including stabilization of ditchlines and slopes, all dirt and debris removed from drainage structures and pavement, completion of road construction with satisfactory test results and payment for testing, road sign installation of Stop and road name(s), verification of survey monuments, stabilization of all erodible soils, and affidavits from the surveyor, engineer, road contractor, lending institution and any other involved party that the dedicated roads are free of any liens, encumbrances or claims of each party.

I certify that these items have been satisfactorily completed and that the improvements are ready for Road Committee review.

Developer/Owner signature: _____
